

Advantages

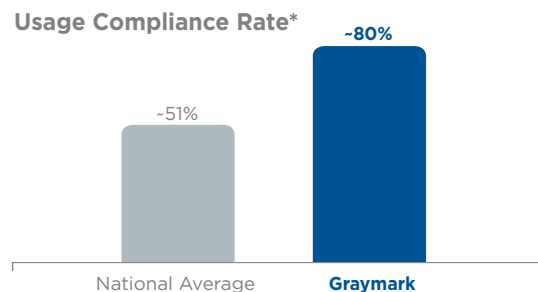

that set Graymark Healthcare
apart from other DME providers

Graymark Healthcare does sleep therapy only. It is not distracted with any other durable medical products.

Graymark has devoted board certified medical directors who reside over each location and are able to fully commit their time to providing our patients the best quality of care and education.

The therapy advantage equation

- 1 Graymark offers the most thorough continuum of care in the industry. Our CPAP success clinic helps patients to fully understand the process they are undertaking and the long term benefits of CPAP therapy.
- +
- 2 Graymark is not limited to selling CPAP/BiLevel machines, masks, and or replacement supplies from only one specific manufacturer. We are a carrier of all state of the art sleep therapy equipment from all CPAP vendors. Our patients, with the help of trained professionals, choose from a large variety of masks with which they are most comfortable.
- +
- 3 All Graymark set-ups and or patient education visits are done by a highly trained certified respiratory therapist.
- +
- 4 Graymark does not charge a mask exchange fee. It is in the patient's best interest to be compliant with therapy. For some, this may require more face to face educational visits.
- =
- 5 **Graymark Healthcare has a CPAP compliance rate of over 80% compared to national compliance rates of less than 50%.**
